

**** Summer School classes at Weston ******Developmental Courses**

Basic Skills - Grades K-5 (at DCE Middle School)

This program will offer activities to build academic readiness skills through play, themed literature, and a variety of hands-on experiences. Pre-reading, pre-writing, pre-math, social skills, gross and fine motor skills, and daily living skills will be addressed.

Developmental Math - Grade 3

This session is designed to provide instruction in basic mathematics skills for students needing additional instruction and practice. The daily instruction will focus on the skills of computation and problem solving through the use of math games, computers, and direct instruction.

English Language Learner - Grades 2-3

Join us for SUMMER LANGUAGE LEARNING FUN! Students will increase English proficiency through reading, writing and hands on projects! Students will build background knowledge and widen their vocabulary in the areas of science and social studies through text, experiments and field trips. The class is primarily for students whose primary language is not English, some students may be referred by their ELL teacher.

Enrichment Courses

A Million Ways! (Enrichment Math) - Grade 3

Have you ever wanted to explore math in a new way? There are a MILLION ways to have fun with math! Come along as we explore geometry, measurement, and numbers through exciting hands-on projects!

Music Rocks! - Grades 2-3

Music Rocks is a class all about two things: music and fun! In this course, students will explore music in new and exciting ways! We will play music games, write our own music, and explore different instruments. Each unit will feature a different theme like summer fun or outer space. We will also take an in-depth look at various drums, the keyboard, and xylophones.

Science in ACTION! - Grades 2-3

Unlock (some of) the mysteries of the world! Gain a better understanding of how motion, forces, simple machines, and chemical reactions work, by taking part in fun and engaging hands-on science experiments. Most experiments use readily available household materials, so many of the experiments that we do in class can be easily recreated at home (with parental approval).

Sports for Life - Grades 2-3

Bring your gym shoes and gear up for a "sportstacular" summer of fun to last a lifetime. CAUTION: Adventures in Sports are about to happen!

Summer Sun Reading Celebration (Enrichment Reading) - Grades 2-3

Do you love to read and talk about books with friends? In this class, we'll celebrate reading each day with a variety of literature choices. Bring a beach towel and find a comfortable spot to relax with a book and a friend as you read books of your choice, delve into characters, and share your thinking through writing.

Techno-World - Grades 2-3

Get ready to use your creativity and ingenuity in brand new ways when you step into Techno-World! Using a combination of iPads and PC's you will make digital projects, create electronic books, visit places around the world on virtual field trips, and develop individual and small-group projects. Step into Techno-World this summer!
